

## **Principal's Message**

The students at W.D.S.S. are outstanding! I enjoy meeting and talking with students in their classrooms and in the hallway. Witnessing their enthusiasm for academic pursuits and extracurricular activities is very and fills me with confidence for our future. How privileged I am to be able to participate in this each and every day!

Every Tartan has the power to make a difference and change the world. As teachers we strive to pass on the knowledge, skills and attitudes that are required to make this possible. I am always impressed with the commitment and energy demonstrated by the staff of W.D.S.S. as they prepare engaging lessons and go above and beyond their classroom duties to provide extra-curricular activities. We have an exceptional group of professionals working at W.D.S.S.

As a staff we started a project Last year to improve teaching strategies to help all students achieve at their highest potential. We now have 30 teachers trained in Differentiated Instruction, which focuses on using individual strengths and learning styles to help each student succeed. We believe that we can make a positive change for each and every student at W.D.S.S.

I am very proud to be part of this school community!  
Mrs. Roberta Buchanan
